

Chautauqua Lake Rest Area on I 86

The Chautauqua Lake Rest Area is the gateway to New York State on I 86 for all those that are traveling from the west. The eastbound rest area is a beautiful and spacious facility which provides a breath taking view of Chautauqua Lake. The number of visitors to the rest area surpasses 200,000 every year.

The Chautauqua Lake Rest Area Information Center is staffed daily and year round. The demand for information on tourism attractions is more than 63,000 patrons annually. We are certain that your business can benefit from these patrons also.

At the Rest Area, we are bridging the gap between digital and print. We can print a label that has a QR Code label that visitors can scan and land on their destination page at tourchautauqua.com, if a member chooses. Once scanned visitors can see your hours, phone, address, description, photos, website address, Facebook, and other social media links. The benefits of this are that visitors that use their phone exclusively can now grab your information, and the member business has more marketing exposure.

CCVB would like to help our I 86 clients get their brochures into the air bnbs, bed & breakfasts, attractions, and restaurants. The Chautauqua Lake Rest Area Information Center is that bridge bringing the businesses that want information and the businesses that want the travelers together. Hence the name Brochure Bridge Program.

If you would like your company's brochure on display at the Chautauqua Lake Rest Area Information Center and be a part of our Brochure Bridge Program please complete the attached form and a starting supply of brochures. We will ensure that your literature is constantly stocked and that our staff members are versed on its contents.

We hope to have your business.

Mike Hudson
(716) 357-4569 Ext. 106
